## Authenticity

#### AYO OLASEINDE

PRESIDENT, SALADMASTER UK

Dear Saladmaster customers.

Over the last decade, the Saladmaster product line has become the leading "healthy food preparation" system in the world. By using a "continual improvement" approach to improving the technology, the design, and the addition of new products, Saladmaster has become the most desirable product line for healthy delicious food preparation.

We have recently noticed some unscrupulous people who are trying to use Saladmaster's reputation for high quality products to make quick money by misrepresenting products on the Internet as "new", "under warranty", or even "genuine Saladmaster products". We strongly urge you to avoid the likelihood of being cheated by unauthorised, and often fraudulent merchants.

Saladmaster has purchased product from some of these merchants in order to understand the methods being used by them. We were amazed to receive used product that was several years old, and even "non-Saladmaster" products. None of these products carried any warranty from authorised Dealers, nor would have been serviced or supported by Saladmaster. In this case, a consumer would have lost much of the value of owning the Saladmaster products.

Saladmaster urges you not to be misled by reduced prices and claims of "new" products on the Internet. A significant part of the value of your Saladmaster product line is the Lifetime warranty you receive from Saladmaster who is the manufacturer. Saladmaster takes pride in providing consumers with the best quality products at a fair and consistent price model. You will be able to look forward to decades of use from your Saladmaster products, along with decades of service and support from Saladmaster. Purchasing product from an authorised Saladmaster Dealership ensures the best value for your investment.

Thank you for investing in the best for your family. Saladmaster will be there to back that investment for a lifetime.

Sincerely

Ayo Olaseinde President, Saladmaster

This is from an Ebay Auction that promoted a "NEW" set of Saladmaster. Turned out to be a collection of older products in various packaging, only one Saladmaster box.

On this auction, the product promoted was Saladmaster, but an inferior Korean product was delivered

TECHNICAL DATA
BLUE SHEET

## Stainless Steel Type 316Ti

**Austenitic Stainless Steel (UNS S31635)** 

#### **GENERAL PROPERTIES**

Allegheny Ludlum Type 316Ti (UNS S31635) is a titanium stabilized version of Type 316 molybdenum-bearing austenitic stainless steel. It is also known as DIN/EN designation No. 1.4571. The Type 316 alloys are more resistant to general corrosion and pitting/crevice corrosion than the conventional chromium-nickel austenitic stainless steels such as Type 304.

Resistance to sensitization is achieved in Type 316Ti with titanium additions to stabilize the structure against chromium carbide precipitation, which is the source of sensitization.

#### **Pitting Corrosion**

Resistance of austenitic stainless steels to pitting and/or crevice corrosion in the presence of chloride or other halide ions is enhanced by higher chromium (Cr) and molybdenum (Mo) content. A relative measure of pitting resistance is given by the PRE (Pitting Resistance Equivalent) calculation, where: PRE = Cr + 3.3Mo

The PRE of Type 316Ti (23.0) is higher than that of Type 304 (PRE =19.0), reflecting the better pitting resistance which Type 316Ti offers due to its Mo content. Type 304 stainless steel is considered to resist pitting and crevice corrosion in waters containing up to about 100 ppm chloride. Type 316Ti alloy on the other hand, due to its Mo-content, will handle waters with up to about 2000 ppm chloride.

Starburst Logo is a Registered Trademark of ATI Properties, Inc. ATI Allegheny Ludlum is a world leader in the technology, production and marketing of specialty materials - stainless steels, silicon electrical steels, titanium, and nickel alloys, as well as other advanced alloys. Allegheny Ludlum serves customers in diversified consumer and capital goods markets in more than 30 nations.
